OFFSET FINSEAL

STANDARD FEATURES

HPS 40 RT is a new electronically brushless driving and controlled horizontal packaging machine. Its low-mounted film reel and long-dwell technology deliver reliability, user-friendliness and maximum flexibility. Suitable for irregular or delicate products, it ensures gentle handling and high packaging quality.

Long-dwell technology allows the use of a wide range of barrier films, ensuring safe hermetic seals. That same technology also streamlines integration of MAP systems, helping to extend product shelf-life.

Optimized design and cutting-edge electronic control speed up format changeovers and reduce operating and maintenance costs. The HPS 40 RT is available with both manual and automatic feed

Wrapping material max. linear speed: 40m/min

Long-dwell sealing jaws

Automatic film reel
splicer

Four (4) pairs of sealing
rollers

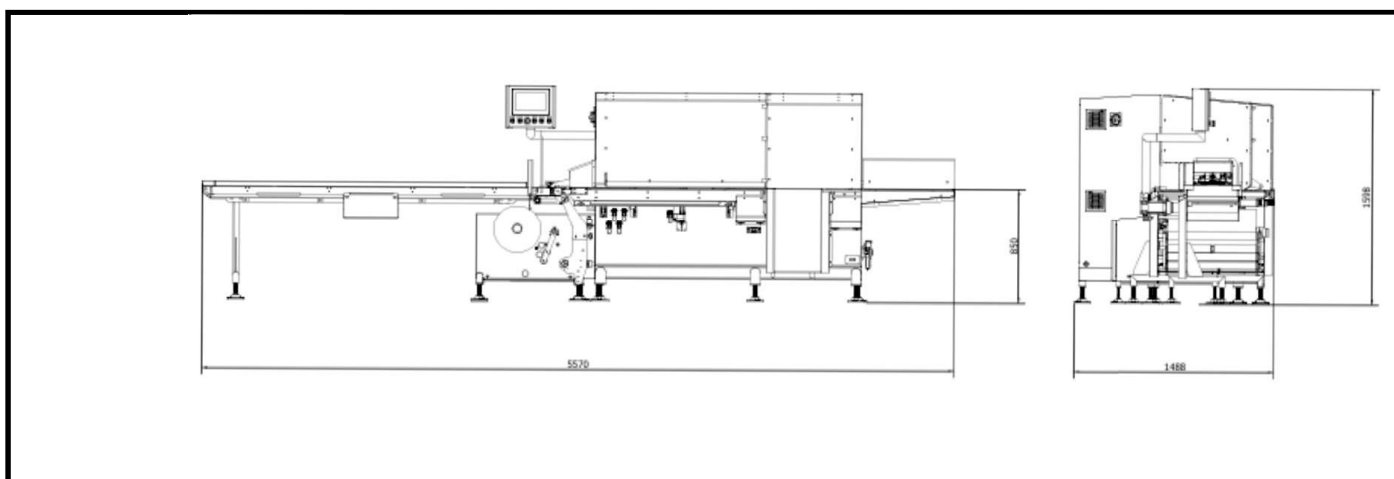

10" color touch
screen HMI

OTHER FEATURES

- Machine available in right or left hand version
- Machine available in painted or stainless steel
- M.A.P. application
- Gusseting device
- No product - No bag
- No Gap - No Seal
- Longless in feeding systems

LAYOUT

TOTAL WEIGHT	POWER REQ	AIR CONSUMPTION
1700 KG	400 V – 50/60 Hz 6,5 Kw	1 NL/min

TECHNICAL FEATURES

WRAPPING MATERIALS	Cold or heat sealable materials, such as polypropylene, barrier films, laminates, paper based films
ELECTRONIC PLATFORM	B&R

MAX FILM WIDTH	MAX SPEED	Ø FILM REEL	PRODUCT LENGTH	PRODUCT WIDTH
650mm	100ppm	350mm	600mm	20 -150mm
800mm	60ppm	350mm	600mm	20 -300mm
